There is nothing that adds so much to the completeness of a man's dress as a becoming hat or cap. In selecting a hat one always consults his own taste, but frequently his judgment is at fault as to the quality and durability of the article he purchases. sent their goods is to patronize a house long established, and one that has made a reputation for fair dealing. Such a house is Mesers. Harper & Bro.

This house was established in 1830, and since that time has enjoyed the confidence of a large and steadily increasing patronage. The fair dealing of the firm has become proverbial, and whatever reputation the house has gained it has been earned through earnest endeavors to please and satisfy its customers.

The long experience of the members of the firm gives them a peculiar advantage over other establishments in knowing the wants of the trade and the various tastes of the people, thus enabling them to select a stock unexcelled for variety of style and quality. It is such a house that one can deal with and rely fully upon the representation made.

Owing to the increasing business of the house, the firm has lately removed to No. 1801 Main street, corner of Stamm House alley. The house is a four story building, and has been completely renovated throughout. The first floor is devoted to the hat and cap department, and is filled with a larger stock carried by any similar house in the city. The firm has made it an object to have on hand the very latest styles of the best makes of hats and caps, keeping pace with the whim of fashion in every respect.

The firm of Harper & Bro. is so widely and favorably known that it is not possible for us to add any more to what we have said in recommending it to the public. Messrs Jordan and Cracrate resisted the application generally and the justice showed a disposition to grant the request. W. H. Caldwell, Esq., and James Buiger, Esq., refused flatly to sitin judgment, but directly Justice John R. Miller having been sent for put in an appearance and the hearing was proceeded with.

Thos. M. Darrah, Esq., was first called by the State, and narrated the circumstances of the altercation very briefly and pointedly. He and Mr. Howell were coming down Twelfith street, and when near Market, the latter was accosted by Grubb, who asked him if a certain epithet had been applied to him (Grubb) by him (Howell). The latter-replied that it had. Grubb then drew back and Howell closed with him. In a moment witness saw a revolver in the grasp of each; wrested it from the held of Grubb, and has retained possession of it ever since.

Mr. Darrah here exhibited the revolver, a very ugly one, shooting a number four cartridge, and of that manufacture of pistol the properties of the province of the peculiar to pawnshop show windows.

The revolver was handed over to the Justice, who looked at it narrowly and laid it carefully aside. It was loaded, every chamber being filled.

WHEELING TRACHERS' ASSOCIATION.—
The regular monthly meeting of the Wheeling Teachers' Association was held yesterday in the hall of the Third ward school building. Superintendent John C. Hervey presided, while Prof. H. C. Shepherd acted as secretary.
Prof. Boyd, of the Madison school, opened the exercises with prayer, after which the following programme was carried out:

"He said he would shoot or mash thowell."

One or two other witnesses were called, the who corroborated the statements made above.

At 2 o'clock Mr. Good made a very forosible speech in favor of a light bond for Grubb, and also reviewed the evidence at length.

Mr. Gracraft followed in a short speech, in which the intentions of Grubb and his declarations to others in the matter, both the fore and after, were reviewed.

Mr. Jordan, for some reason "peculiar to him," waived the felonious part of the charge, and asked that Grubb be held on a charge of assault, for the County Court, and that he be fined for carrying concealed weapons. The Justice held him in \$50 lor court, and fined him \$5 and costs for lith eatter.

More than a dozen cases have come to my knowledge, where St. Jacons Oil effected speedy cures, but I will only mention one instance. A man suffering for twenty-four years from Rheumatism was induced to try the St. JACOBS OIL. He used a few bottles of this truly wonderful remedy, and is now entirely well once more. W. New York, March 12.—The Tribune's special correspondent in Ireland says men, wemen and children in some of the famine stricken portions of Ireland are reduced to the last stages of nakedness and destitution. Families are huddled to gether without fire, food, clothing or bedding, within miserable huts or the former abodes of animals. Thousands and thousands are begging, not bread, but the humblest and cheapest food that can be supplied for human use, Indian meal. All this exists, and there is little prospect of much improvement until August. It appears that in some districts the distress is even greater than it was in the appalling famine of 1847.
